

ROBOTA-SUDOE

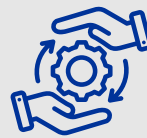

Robotics, Digitalisation, and
Automation as Engines of
Competitiveness and Growth of SMEs

About the project

Our project tackles a significant challenge : the technological modernization of key economic sectors within the SUDOE area, focusing particularly on the agri-food industry and plastics sectors. We are committed to bridging the gap between cutting-edge innovation and regions where traditional practices still prevail.

Why this project matters ?

Transforming
Traditional Sectors

Supporting
Regional Growth

Focus Areas

- *Agri-Food Industry*
- *Plastics Sector*

Project objectives

Knowledge Transfer

Delivering
advanced
technologies to
regions and
sectors in need.

Innovation for All

Making modern
technology accessible
to traditional and
underdeveloped
sectors.

Competitiveness

Boosting the
global
competitiveness of
businesses in the
SUDOE area.

Sustainability

Promoting
eco-friendly
practices to reduce
environmental
impact.
